

Logistics in Clariant SSC

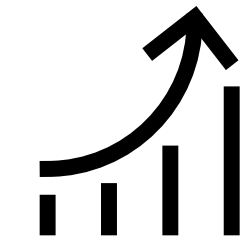

CLARIANT 

Clariant established process driven model of GBS which delivers End2End processes at competitive cost and agreed service levels, with global best practice & continuous improvement.

The decision to centralize Logistic processes followed finance transitions was driven by the vision to centralize the complete Order2Cash under one roof (CM, OM, TM, Ex/IM, AR, Cash Collection).

Increased best global practice process compliance for 22000+ deliveries to 70 countries in quantity of 70000tons and 250000litres in 10000 containers & 90000+ transport and export documents annually
