

# Managing Talent at Luxoft via LMA, PPM & HPC

At Luxoft, we have decided to run our own management training programs in order to expand employee knowledge and diversify experience in accordance with individual needs.

By organizing the LMA, PPM, and HPC we can prepare and release into the organization dozens of managers with full capabilities at different levels.

*Luxoft's managerial programs depend on the continuity of improvement. The LMA, PPM, and HPC shouldn't be seen as a series of random trainings, but as programs that teach the key skills of a leader.*

AVERAGE EVALUATION

Very good

Basing on participant's feedback we can readjust our programs.
