

# Road Safety Educational Program for Young Children

Every year, close to 1000 children got injured because of the unsafe behaviors on the road or hazardous conditions on their way to school.

In collaboration with the police authorities and the municipalities, SBO Krakow volunteers launched Bezpieczne Szelki: a road safety awareness campaign tailored to the needs of Young School Children.

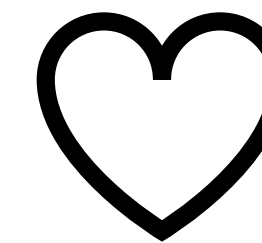

*+2000 young children trained to better appraise the hazards on the roads. The dynamic employees from our Sector are keen on engaging with local communities to build a safer environment for all of us.*

30 VOLUNTEERS

## Offer Time & Energy

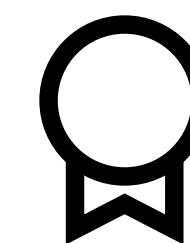

Eagerness to change the too sad road injured statistics in Poland

FULFILLING & RICH MOMENTS

## Share, Play & Train
