

BUSINESS LEADER IN BUSINESS EXCELLENCE

PPG GLOBAL BUSINESS SERVICES POLAND SP. Z O.O.

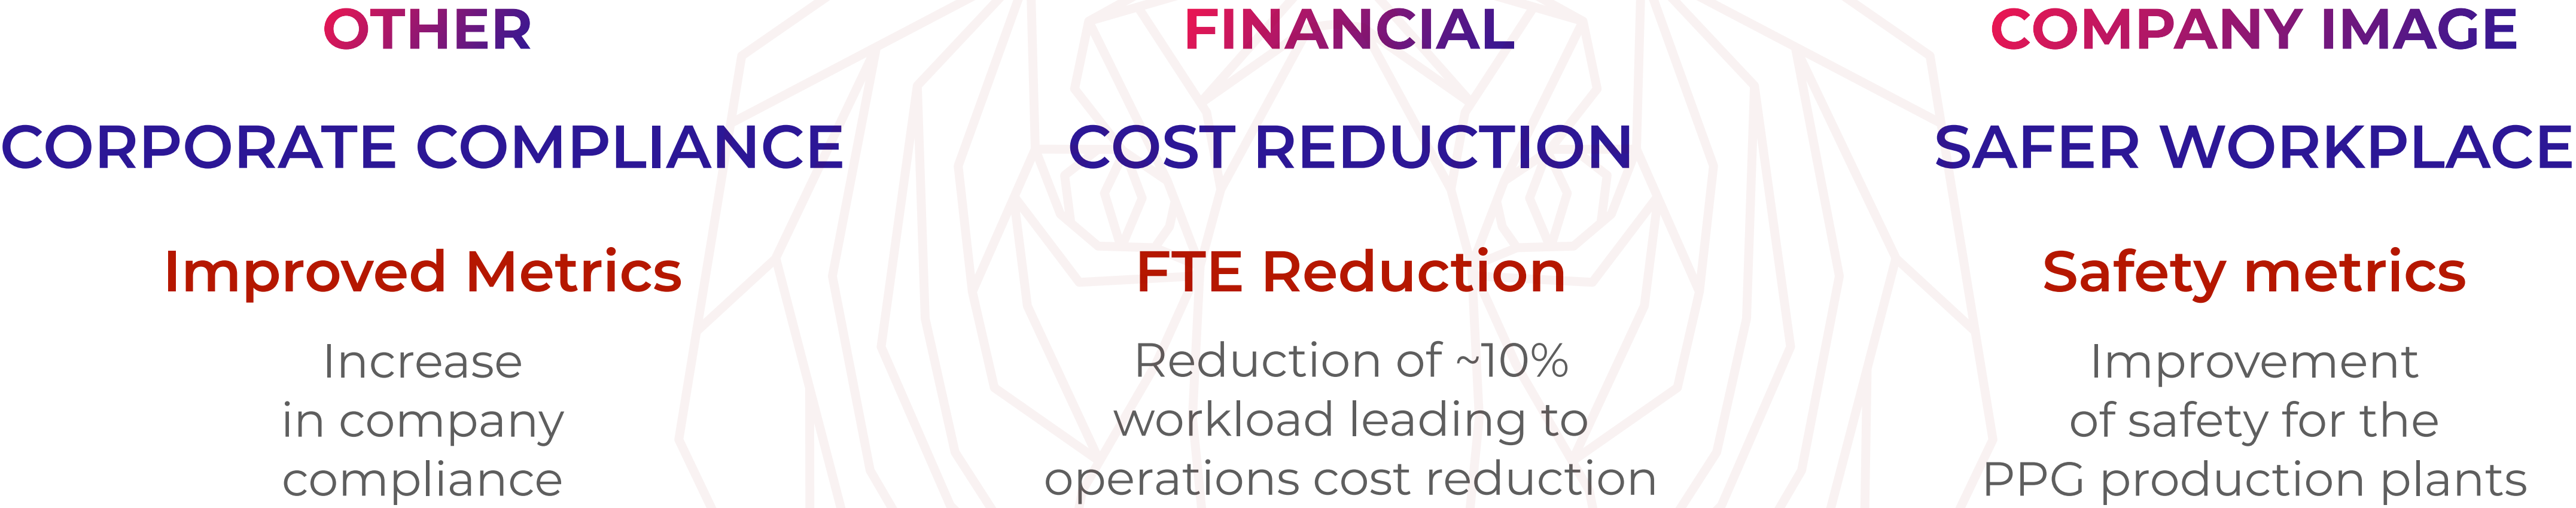

SYSTEMS FOR SAFETY

Safety processes decentralized and not working efficiently – leading to potential audit findings. Lack of central team consolidating the data or addressing the requirement holistically

Creation of EMEA database to track status and changes to actively used raw materials reported by suppliers. Implementation of macro saving over 1,7 FTE by streamlining the data export to central tools

PPG GLOBAL BUSINESS SERVICES POLAND SP. Z O.O.

Key project outcomes are: improved corporate compliance level, minimized audit findings, centralized & efficient safety processes and avoidance of 1,7 FTE resource engagement
